Quantitative and Expert Support

A Caution—The Importance of Limiting

Collateral Deposits

Conclusion: Collateral and Uncertainty

SECTION IV: THE ALTERNATIVE MARKET

THE ALTERNATIVE MARKET

The Trend Toward Self-Insurance

Factors in the Decision To Self-Insure

Management’s Attitude Toward Risk

Organization’s Financial Strength and Objectives

Nature of the Organization’s Operations and Loss Exposures

Internal Risk Management Capabilities

Cost and Availability of Other Options for the Exposure

Advantages of Self-Insurance

Improved Control over Claims Administration

Safety and Loss Control

Cost Control

Market Leverage

Cash Flow Benefits

Disadvantages of Self-Insurance

Tax Deductibility

Accounting Treatment

Loss of Stability

Increased Administration

Regulatory Requirements

Services and Administration

Safety and Loss Control Services

Claims Administration

Legal Services

Risk Management Information Systems Services

Unique Aspects of Self-Insuring Certain Exposures

Workers Compensation

Excess Workers Compensation Insurance

Automobile Liability and Physical Damage

General Liability/Products Liability

Coverage for Defense Costs under Self-Insurance Programs

Self-Insurance in the Healthcare Industry

Hospital Professional Liability

Self-Insurance

Patient Compensation Funds

Centers for Medicare & Medicaid Services (CMS)

Requirements for Self-Insurance

Self-Funded Workers Compensation Trusts for Nonprofit Healthcare Providers

Creating a Self-Insured Trust

The State Application Process
**CAPTIVE RISK POOLS FOR PUBLIC ENTITIES**  
- Captive Insurance Pools
  - Risk Pool Operations
  - Captive Insurance Pool Operations
- Michigan Risk Pooling Regulations
- The Michigan Captive Pool
- Investment of Pool Funds
- Refunds
- Safety and Loss Control
- Actuarial Reviews
- Excess Insurance
- Risks Insured Outside the Pool
- Pool Coverage Agreement
- Regulatory Requirements
- Pool Administration
- The Future of the Pool
- Pooling for Smaller Public Entities
- Conclusion

**WORKERS COMPENSATION NONSUBSCRIPTION**  
- History of Nonsubscription
- Self-Insurance versus Nonsubscription
- Self-Insurance
- Nonsubscription
- Subscriber Exposures
- Nonsubscriber Exposures
- Potential Damages under Nonsubscription
- Tort Liability
- Punitive Damages
- Defenses Available under Nonsubscription
- Mitigating Potential Damages under Nonsubscription
- Nonsubscriber Obligations
- Potential Obstacles for Nonsubscribers
- The Optimum Nonsubscription System
- Management
- Benefit Plan
- Benefit Plan Design Considerations
- Employee Communications
- Insurance Coverage
- Claim Administration
- Reporting
- Opting Out: The Advantages
- Reduction of Frivolous and Fraudulent Claims
- Short-Term Cost Savings
- Elimination of Insurer Administrative Costs
- Additional Incentive for Safety
- Reduction of Internal Administration Costs
- Improved Employee Satisfaction
- Opting Out: The Disadvantages
- Potential Catastrophic Liability
- Exposure to Noneconomic Losses
- Exposure in Multiple Claim Situations
- Deterioration of Employee Relations
- Mandatory Arbitration Provisions
- Conclusion

**LARGE DEDUCTIBLE PLANS**
- History
- Advantages of Large Deductible Programs
- State Approval Not Required
- Claims Handling and Other Services
- Lower Start-Up Costs
- Incentive for Loss Control
- Effect of Large Deductibles on Experience Rating
- Disadvantages of Large Deductibles
- Risk of High Costs
- Risk of Service Charges and Assessments
- Issues with Cancellation or Nonrenewal
- Treatment of Defense Costs
- Medicare Secondary Payer Law Requirements
- Large Deductible Program Structures
- Large Deductible Program Cash Flows
- Selecting an Appropriate Deductible Level
- Deductible Plan Buyouts
- State Regulations
- Insurer Filing Requirements
- Summary

**CAPTIVE INSURANCE COMPANIES**
- Reasons for Forming a Captive
- Broader Coverage
- Stability in Pricing and Availability
- Improved Cash Flow
- Increased Control over the Program
- Historical Perspective
- Types of Captives
- Direct versus Fronted Captives
- Related-Unrelated Business
- Initial Prerequisites for Captive Formation
- Wholehearted Commitment to Loss Control
- Minimum Annual Premium
- Premiums Exceed Expected Losses
- Organizational Risk Tolerance
- Long-Term Commitment
- Strong Internal Oversight
- Reasonable Predictability of Losses
- Willingness To Share Risk
- Advantages of Captives
- Reduced Operating Costs
- Investment Income and Underwriting Profit

(FATCA)........................................ VI.A.94
Federal Insurance Excise Tax (FET) Imposed
on Insurance and Reinsurance Policies Placed
with Foreign Insurers and Reinsurers........ VI.A.95
Situs of the Risk................................ VI.A.96
Liability for the Tax............................. VI.A.97
Reporting and Payment........................ VI.A.98
What “Premiums” Are Subject to the FET.. VI.A.98
Exceptions to and Exemptions
from the FET.................................. VI.A.99
The Cascading FET............................. VI.A.101
IRS Contends Pooling Arrangement Treated as
Entity and FET Imposed....................... VI.A.104
Equitable Recoupment of FET Unlikely...... VI.A.104
Redomesticating to the United States...... VI.A.106
ACCOUNTING IMPLICATIONS OF RISK FINANCING
Financial Statements............................. VI.N.1
FASB Accounting Standards Codification™....... VI.N.4
Application of GAAP to Risk Financing .......... VI.N.5
Accounting Treatment of Retained Risk
and Risk Financing Plans....................... VI.N.5
Materiality....................................... VI.N.7
Accounting for Fully Self-Insured Programs..... VI.N.8
Accounting for Reasonably Estimable Losses... VI.N.8
Accounting for Losses That Are Not Reasonably
Estimable (Contingencies)..................... VI.N.10
Accounting for Fully Insured (Guaranteed Cost)
Programs....................................... VI.N.11
Accounting for Combined Programs:
Retained Risk with Excess Insurance
and/or Adjustment Provisions................ VI.N.12
Insurance Accounting for Programs
with Retained Loss............................. VI.N.12
Claims-Made Insurance......................... VI.N.14
Chronological Stabilization Programs........ VI.N.15
Deposit Accounting for Programs
with Retained Loss............................. VI.N.15
Conclusion...................................... VI.N.18
SECTION VII: PLAN EVALUATION
THE PLAN COMPARISON MATRIX................ VII.A.1
Explanation of Comparison Points................ VII.A.1
Risk Financing Plan Considerations........ VII.A.3
Using the Matrix.............................. VII.A.5
EVALUATING ALTERNATIVE RISK FINANCING OPTIONS................ VII.B.1
Evaluation Criteria........................... VII.B.2
Established Programs........................ VII.B.2
Underwriting Results........................ VII.B.3
Loss Experience.............................. VII.B.3
Capital Investment Requirements................. VII.B.4
Program Longevity.................................... VII.B.4
Dividend History........................................ VII.B.5
Effectiveness of Loss Control Services and Claims Management........ VII.B.5
Financial Stability and Solvency...................... VII.B.6
Asset Portfolio Management/
    Investment Income................................... VII.B.6
Underwriting Guidelines................................ VII.B.6
Retention Levels and Risk Sharing.................... VII.B.8
Tax Ramifications....................................... VII.B.9
Fronting Arrangements.................................. VII.B.9
Reinsurance............................................. VII.B.10
Program Management/Service Providers/
    Expense Ratio........................................ VII.B.11
Exit Strategy.......................................... VII.B.11
Security/Collateral Requirements...................... VII.B.12
SEC Issues........................................... VII.B.12
Domicile Considerations................................ VII.B.12
Evaluating New Alternative Market Programs........ VII.B.13
Reasons for Forming a Group Program.............. VII.B.13
Reduction in Costs..................................... VII.B.14
Creation of a Stable Market........................... VII.B.14
Foundation Documentation............................. VII.B.14

NEGOTIATING AND COMPARING ALTERNATIVE RISK FINANCING PROGRAMS........................ VII.C.1
Identifying and Analyzing Program
Cost Components....................................... VII.C.2
Producing a Reasonable Loss Projection............ VII.C.2
Estimating the Range of Potential Outcomes........ VII.C.4
Negotiating with Insurers............................. VII.C.5

CASE STUDIES......................................... VII.D.1
Comparing Ultimate Costs............................. VII.D.2
Case Study 1—Comparing Multiple Rating
    Plan Options........................................ VII.D.2
    Incurred Loss Retros................................ VII.D.2
    Deductible Plan Options............................. VII.D.3
    Guaranteed Cost Plan................................ VII.D.4
    Program Cost Comparison............................ VII.D.4
Case Study 2—Net Present Value
    Considerations....................................... VII.D.6
    Premium............................................. VII.D.7
    Losses and Loss Payment Profile................... VII.D.7
    Taxes and Deductions................................ VII.D.8
    Cost of Credit........................................ VII.D.8
    Case Study Format.................................... VII.D.8
    Guaranteed Cost Plan................................ VII.D.9
    Incurred Loss Retro.................................. VII.D.11
    Paid Loss Retrospectively Rated Plan............ VII.D.13
    Self-Insurance Program.............................. VII.D.16
    Deductible Plan....................................... VII.D.18
    Program Cost Comparison Summary................ VII.D.20
    Program Cost Comparison—
        Annual Discounting ................................ VII.D.21
Case Study 3—Deductible Program
Options................................................... VII.D.22
Plan Comparison Based on Annual Costs
Work Sheet .............................................. VII.D.26
Retro Calculation Work Sheet........................ VII.D.27

BREAK-EVEN ANALYSIS OF RETROSPECTIVE RATING PLANS................................ VII.E.1
Example Comparison..................................... VII.E.2
